CURVENT
INTERNATIONAL (PTY) Ltd

“SMART MULTIVALENT FACADES”

**FACADE
TECHNOLOGIES**

SOLUTIONS

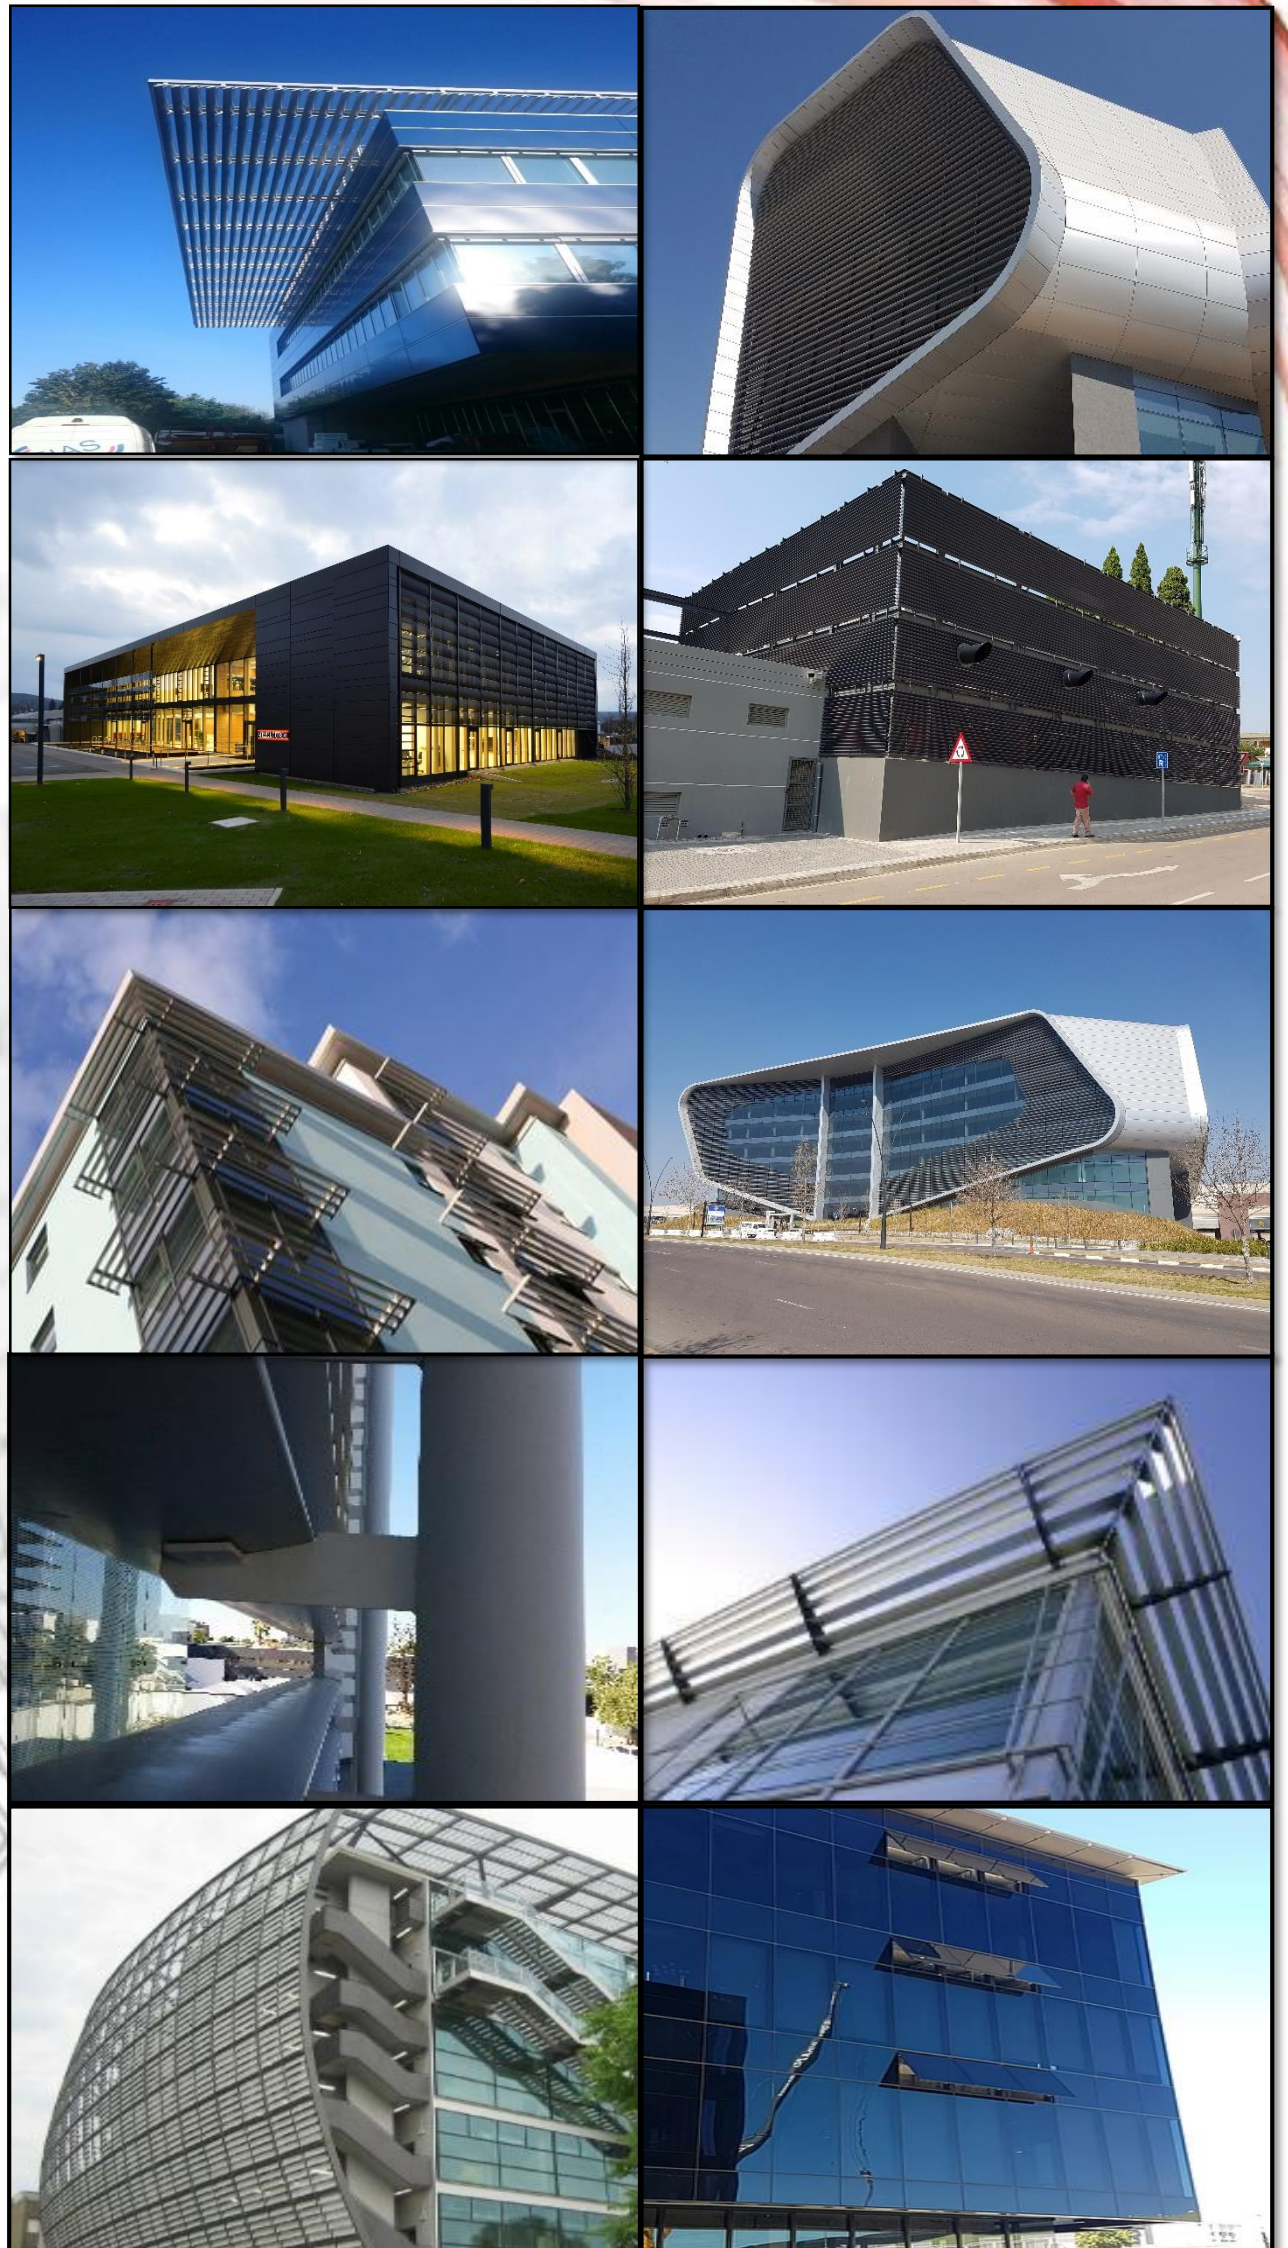

- Bespoke Screening & Control Systems
- Multivalent Energy Façade Technology
- Variety of Extruded Aluminium Profiles
- Sliding & Fixed Screening Panel Systems
- Bespoke Cladding Panel Systems
- Plantroom Screening & Ventilation Louvres
- Natural Daylighting Systems
- Natural Ventilation Systems
- Natural Energy Systems

SCOPE OF SERVICES

- Concept Design and Development
- Specifications
- Detail Drawings
- Manufacturing
- Installation
- Service and Maintenance

“As an ISO 9001 company, Curvent International endeavours to ensure our clients receive service and systems, of the highest standards and quality.”

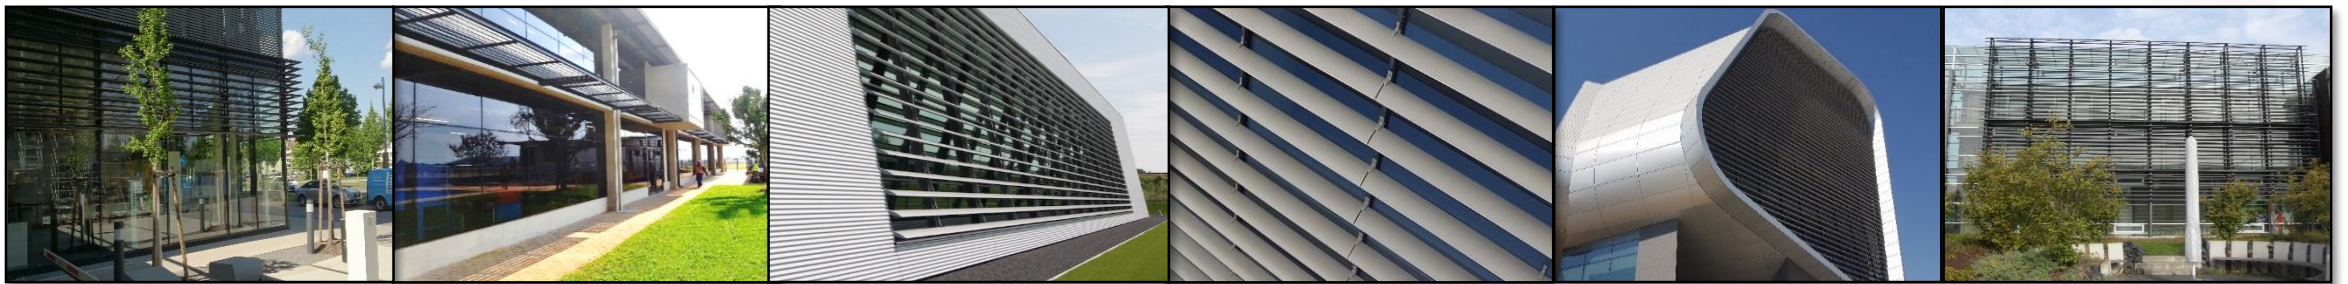

With over 30 years experience and expertise, Curvent International is able to offer a variety of tailor made, turnkey solutions to suit any project. Our products and designs ensure optimal energy efficiency, solar heat gains, natural lighting and ventilation, all whilst incorporating creative and functional designs. We incorporate style, finesse and functionality.

SUN CONTROL SOLUTIONS

With Curvent's diverse range of expertise and products, you are assured to receive cutting edge quality solutions for your Sun Screening applications.

- Aesthetically appealing & Stylish
- Functional and Versatile systems
- Radiant Heat Deflection / Green Building Compliant
- Shade & Natural Air Flow Combinations
- Optimisation of Solar Heat Gain co-efficiencies
- Reductions of Building Mechanical Heating & Cooling
- Optimisation of natural Lighting
- Glare reduction and Comfort management
- Structural Integrity Optimised
- Utilisation of Aluminium profiles for Durability and Cost Savings

SCREENING & VENTILATION LOUVRE APPLICATIONS

Since 1984, Curvent International has been a market leader in smoke extraction and natural ventilation systems. Building on this knowledge and experience, Curvent' Facade Technologies was established to continue providing unparalleled screening and ventilation louvre solutions for most architectural applications.

- Plant Screening systems
- Ventilation and rain defence systems
- Selection of Custom Systems
- Performance driven solutions
- Aesthetically pleasing and functional systems
- Wide versatile range of profiles and materials
- Standard and customised systems available
- Energy efficient and functional systems

All powder coating finishes complies with SANS 1796:2013 for architectural aluminium product profiles, offering from 15 to 25 Year Warranty on specific projects.
